

eximSafe – Cube

300 x 300 x 300 mm

1. PRODUCT DESCRIPTION

eximSafe Cubes can be used in playgrounds as a climbing element and gardens as a design feature – other applications are up to the user's creativity. Thanks to the rubber surface, serious injury risks are being reduced to a minimum. eximSafe Cubes are extremely durable, they possess long lasting elasticity, excellent shock absorption properties and are easy to clean (power washer and a mild detergent). Moreover, they dry very fast due to their porous surface making them comfortable to sit at.

2. EXAMPLES OF USE

Playground design elements, garden applications, dividing terrain lines, etc.

3. AVAILABLE DIMENSIONS (mm)

300 x 300 x 300

4. TECHNICAL DATA

Weight per piece (kg):	20
Pieces per pallet:	45
Density (kg/m ³):	741
Colour:	red, black, green, (other colours in request)
Temperature resistance:	from - 40 up to + 80°C (long term), up to + 110°C (short term)
Dimension deviation:	max. 1.5 %

5. MATERIAL

Rubber granulate and buffings from tyres, bonded with coloured, UV-resistant polyurethane.

6. INSTALLATION

To be installed as a loose element or glued (see eximSafe installation guide).
