

## eximSafe – Palisade 400 / 600 (height), 250 (diameter) mm

### 1. PRODUCT DESCRIPTION

eximSafe Palisades prevent the terrain from sliding by providing a clear, decorative edging between different terrains. Due to the rubber surface, serious injury risks are being reduced to a minimum. The eximSafe Palisades are installed just like usual palisades. Moreover, they dry much faster after rain owing to their porosity. The palisades are temperature-resistant, slip-proof, weather and UV-resistant, water permeable, indecomposable, thermal isolating, easy to install and eco-friendly.

### 2. EXAMPLES OF USE

Sandpit and path surroundings, garden applications, dividing terrain lines, etc.

### 3. AVAILABLE DIMENSIONS (mm)

400 / 600 (height), 250 (diameter)

### 4. TECHNICAL DATA

Weight per piece (kg):	12.3	19.4
Pieces per pallet:	32	32
Density (kg/m <sup>3</sup> ):	682	720
Colours:	red, black, green, (other colours on request)	
Temperature resistance:	from - 40 up to + 80°C (long term), up to + 110°C (short term)	
Dimension deviation:	max. 1.5 %	

### 5. MATERIAL

Rubber granulate and buffings from tyres, bonded with coloured, UV-resistant polyurethane.

### 6. INSTALLATION

The palisades are supplied with an anchoring tube.
